Eversource and the City of Hartford to Host Free Light Bulb Swap for Residents

*Swap part of ENERGY STAR® “Change the World” Tour,
a national initiative that combines energy efficiency with community service*

HARTFORD, Conn. – September 23, 2016 – On Sunday, October 2, Eversource and the City of Hartford will host a free light bulb swap for residents as part of the 2016 [ENERGY STAR® Change the World Tour](#). The light bulb swap will be held from 9 a.m. to 2 p.m. at both the Thirman Milner School, located at 104 Vine Street, and the South End Wellness Senior Center, located at 830 Maple Avenue.

Hartford residents, with identification, may bring up to five incandescent light bulbs in any condition and exchange them for new, energy-efficient ENERGY STAR® LED bulbs, free of charge while supplies last. Additional LEDs and lighting products will be available for purchase at a discounted rate.

“The LED giveaways are great opportunities for Hartford residents to start saving money and energy at home,” Eversource’s Energy Efficiency spokesman Enoch Lenge said. “As part of the Change the World Tour, for each additional LED bulb purchased, another LED bulb will be donated to Habitat for Humanity.”

Energy experts from Eversource will be on-hand at the light bulb swaps to answer questions and provide people with information on how they can save money and energy at home, including information on the popular in-home energy checkup, [Home Energy SolutionsSM](#).

In 2013, Hartford joined [Clean Energy Communities](#), the nationally-recognized Energize Connecticut program to help cities and towns save energy and increase the installation of renewable energy. Eversource is currently working with Hartford to help it reach its energy goals and reduce municipal building energy consumption by 20 percent by 2018.

Through Clean Energy Communities, Hartford residents that participate in Energize Connecticut programs – such as Home Energy Solutions – help the city earn points toward a grant. These “Bright Idea Grants” fund community-selected energy saving projects such as the upcoming light bulb swaps, or the installation of new LED lighting at city hall or a school.

Residents looking to save energy and money should visit EnergizeCT.com or call 877-WISE-USE (947-3873).

About Energize Connecticut

Energize Connecticut helps you save money and use clean energy. It is an initiative of the Energy Efficiency Fund, the Connecticut Green Bank, the State, and your local electric and gas utilities, with funding from a charge on customer energy bills. Information on energy-saving programs can be found at EnergizeCT.com or by calling 1.877.WISE.USE.
